

Leadership and Management Program

The Leadership and Management Program, Faculty of Health Sciences,
School of Nursing **Health Care Leadership and Management Program**
Certificate of completion.

The academic program consists of six courses:

- Leadership and Management
- Leading Effective Teams
- Conflict Management
- Quality Management
- Advanced Leadership and Management
- Integrative Leadership Project

Successful completion of the six (6) courses leads to a Program Certificate of completion and 24 units of university credit.

The Leadership and Management Program:

- designed for clinical and corporate members of the health care team who hold or aspire to clinical or administrative leadership and management positions in the acute care, complex/long term care, and community sectors.
- enhances the learners' knowledge related to the theories, principles, research, and best practices of leadership and management and their application to real issues and opportunities in the workplace
- provides an inter-professional focus that strengthens learners' abilities to influence practice at the individual, professional, organization, and systems levels.

Learners wishing to complete individual courses without completing the Program may continue to do so. University credit will be granted upon successful completion of each course.
